

EASY-FLOW

**WORLD'S FIRST WEIGHT TYPE UROFLOWMETER
WITH AUTOCLEANING**

Easy – Flow is Auto cleaning
Urine Flow meter.

This patent applied product is
world's First gravimetric type
Uroflowmeter with self
cleaning facility.

EASY-FLOW

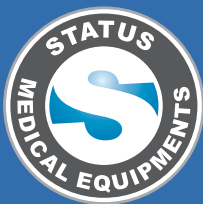

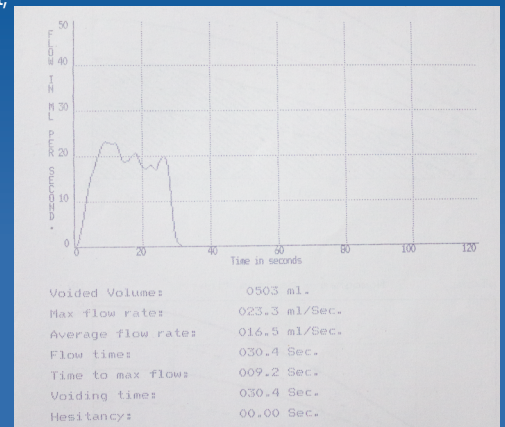

WORLD'S FIRST WEIGHT TYPE UROFLOWMETER WITH AUTOCLEANING

Advantages

- Provides clean, convenient & hygienic way for urine flow testing
- After urination, no need to empty & clean the urine beaker. Auto flush function, empties the beaker & rinse it. The urine is discharged to drainage.
- Can Be attached to male urinal providing natural, standing position for male patients
- Combines precision & easy maintenance of gravimetric Uroflowmeter with convenience of use of turbine type Uroflowmeters.
- Attendant is relieved from unwanted task of emptying the urine filled beaker.

The System consists of

- Easy – Flow sensor with valve
- Control unit
- Printer
- Necessary piping & cables.
